Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Election/Restrictions

A preliminary amendment of 6/10/02 canceled claims 14-16, 18, 19, 21, 24-33, 35-44, 46-58 and 60-73.

Claims in the application are 1-13, 17, 20, 22, 23, 34, 45 and 59.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claims 1-13, 20 and 22, drawn to a composition, method of attaching an agent to tissue and kit requiring a compound of formula I which is $X_2-L_2-A-L_1-X_1$, classified in class 424, subclass 94.1.

II. Claims 17, 23, 45 and 59, drawn to a method of sealing tissue, method of treating a subject and kit requiring a compound of formula II which is X_1-L-X_2 and which can be selected from N-hydroxy-succinimide, N-alkyl-maleimide and derivatives thereof, classified in class 514, subclass 1.

III. Claims 34, drawn to a method of treating a subject using a bifunctional reactive compound of formula I, II or III, classified in class 424, subclass 489.

The inventions are distinct and do not form a single inventive concept because they do not contain the same special technical feature and lack unity of invention, each from the other because:

Inventions I and II require different formulas that function differently in a method of use, and invention III can be carried out with formula III that is different from formulas I and II. The

special technical feature of invention I is formula I. The special technical feature of invention II is formula II and the special technical feature of invention III can be formula III. Therefore, inventions I, II and III can each be separately used without carrying
5 out any of the other inventions.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

10 Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance
15 with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
